

Immune Defense Pack

Gear up with Immune Defense Pack. With ingredients like antioxidants, polyphenols, and high-potency vitamins C, D, and zinc, this arsenal of products is primed to support a healthy immune response as well as cardiovascular function.*

What's in the pack?

Quercetin: Quercetin promotes a healthy immune response and provides excellent support for antioxidant processes, helping protect cells from harmful free radicals. Quercetin also supports cardiovascular health, helps maintain healthy blood pressure levels already in the normal range, and promotes healthy HDL function.*

Vitamin C: Vitamin C supports healthy immune function by helping promote natural killer cell and white blood cell activities.*

EGCG: This ingredient from decaffeinated green tea leaf extract is categorized as a flavonoid polyphenol, which can help promote antioxidant processes in the body.*

N-acetylcysteine (NAC): A metabolite of the sulphur-containing amino acid cysteine that stimulates the biosynthesis of glutathione, a key antioxidant produced in the body. Glutathione plays an important role in protecting the body against oxidative stress.*

Vitamin D₃: This is the most bioavailable form of supplemental vitamin D. Vitamin D provides unique support for long-term immune health and well-being. Some research suggests that vitamin D sufficiency may contribute to healthy cardiovascular function.*

Zinc: A mineral that plays an essential role in maintaining healthy immune system function. In addition, zinc is a component of numerous enzymes in the body related to energy metabolism, bone mineralization, and protein synthesis.*

The Metagenics Difference

Metagenics is a professional nutraceutical company that formulates, manufactures, and continually evaluates nutritional products in clinical practice. Each formula represents years of collective research to deliver optimized foundation nutrition and targeted health support.*

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Each packet contains: 1 (3) 5000 softgel (golden yellow), 1 Quercetin 500 capsule (yellow), 1 Ultra Potent C 1000mg tablet (off-white with speckles), 2 Immune Active capsules (yellow orange).

Directions: Take one packet daily with food or as directed by your healthcare practitioner.

Caution: If pregnant, nursing, or taking medications, consult your healthcare practitioner before use. Keep out of the reach of children.

Notice: This product contains vitamin D at a level that exceeds the adult tolerable upper intake level. It is highly recommended that serum 25(OH)- and 1,25(OH)₂-vitamin D be monitored every 60-90 days while consuming this product to ensure that levels remain in acceptable range.

Storage: Store in a cool, dry place.

Products included are non-GMO and gluten-free.

Immune Defense Pack

Targeted nutrients to support a healthy immune response and cardiovascular function*
