†Daily Value not established.

Other ingredients: sorbitol, mannitol, stearic acid, natural peppermint flavor, modified cellulose gum, and magnesium stearate.

Suggested Use: 1 lozenge at bedtime. For best results, allow to dissolve in the mouth before swallowing.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.

Sleep Science **MELATONIN COMPLEX™** is a soothing nighttime formula, which combines the neurohormone melatonin with GABA, glycine, and taurine, to help support the levels of these key amino acids that can act as inhibitory neurotransmitters. Coenzymated™ vitamin B-6, the active form of vitamin B-6, is included to support healthy levels of neurotransmitter production in the brain.*

WARNING: USE ONLY AT BEDTIME. For adult use only. Not for use by children, teenagers, or women who are pregnant, may become pregnant, or breastfeeding. If you are under medical supervision, or have an autoimmune disease, diabetes, a depressive disorder, a thyroid condition, epilepsy, leukemia, or a lymphoproliferative disorder, or are taking MAO inhibitor drugs or corticosteroids such as hydrocortisone or prednisone, consult with your physician before taking this product. Do not take with alcoholic beverages or when operating machinery or driving a vehicle.
