DIETARY SUPPLEMENT

PANTETHINE

COENZYME B-5 PRECURSOR

SUBLINGUAL • 60 TABLETS

Supplement Facts

Serving Size 1 Tablet

	Amount Per Serving
Pantethine (coenzyme B-5 precursor)	25 mg†
†Daily Value not established.	

Other ingredients: sorbitol, mannitol, natural peppermint flavor, modified cellulose gum, and magnesium stearate.

THE BENEFITS OF SUBLINGUAL VITAMINS

In order for vitamins to be utilized by the body, they must first be converted into their active coenzyme forms. This sublingual precursor to coenzyme B-5 (also called coenzyme A) goes directly into your bloodstream in its active form, ready to go to work immediately. This avoids loss that may occur not only during digestion, but during the liver's conversion process as well. Pantethine is a combination of two molecules of pantetheine. Pantetheine itself is a combination of pantothenic acid (vitamin B-5) and *beta*-mercaptoethylamine. Pantethine is the precursor to coenzyme A, the critical starting point in the Krebs energy production cycle.*

Suggested Use: 1 to 3 tablets daily. Place tablet under the tongue and allow to dissolve slowly, altering the position of the tablet to avoid prolonged contact with the same area.

NOTE: If you are pregnant, may become pregnant, or breastfeeding, consult your health care professional before using this product.

Do not use if either tamper-evident seal is broken or missing. Keep out of the reach of children.
