

• PROFESSIONAL GRADE SUPPLEMENTS •

ALLMAX Citrulline Malate [2:1] improves training intensity, endurance and speed of recovery.* It performs this by 5 main functions:

- 1) Increases blood Arginine levels (gram for gram at double the level of Arginine).*
- 2) Increases endothelial Nitric Oxide (NO) levels and thereby improve vascular function and blood flow.*
- 3) Improves kidney bicarbonate reabsorption providing a powerful buffer against increasing muscle acidification during intense training.*
- 4) Detoxifies fatigued muscle tissue by removing ammonia (a toxin that can increase 3-fold during intense training).*
- 5) Rapidly replenishes PCr (phospho-creatine) stores, PCr is a key storage of energy muscles tap into.*
