

• PROFESSIONAL GRADE SUPPLEMENTS •

DIRECTIONS: Take 1 capsule daily just prior to exercise. Do not exceed 2 capsules daily.

ALLMAX Yohimbine + Rauwolscine (Alpha-Yohimbine) are the pure synthetic versions of Pausinystalia Yohimbe and Rauwolfia serpentina; thousands of times more powerful than the original herbal extracts from which they were isolated.

Most frequently used for rapid fat loss due to its targeted ability to act on stored fat. Yohimbine + Rauwolscine limits fat storage and boosts lipolysis; the release of fatty acids within stored fat.*

Yohimbine has an extremely high affinity for the α_2 -adrenoreceptor (α_2 -AR). These receptors (primarily in fat cells) control the rate of release of stored fat. As antagonists, Yohimbine & Rauwolscine lock on to α_2 fat cell receptors. Fat storage is deactivated and rapid release of stored fat is initiated.*

Rauwolscine (or Alpha-Yohimbine), is an extremely rare variation of Yohimbine with a longer half-life and a more powerful α_2 -AR affinity. This means you need less of it to create a greater effect; it lasts longer and is the perfect complement to Yohimbine.*

Yohimbine + Rauwolscine is one of the most effective and efficient fat loss aids. Widely praised for its unique MOA (Mechanism Of Action), Yohimbine + Rauwolscine is radically different than caffeine. While caffeine is one of the best fat loss analogs out there, those who are looking to "cycle off" caffeine can use Yohimbine + Rauwolscine to affect fat loss in a completely different way.*
