Research shows that turmeric root supports a healthy inflammation response.¹ **TURMERIC 1000™** provides 1,000 mg per tablet of curcuminoids, the active components of turmeric. Turmeric supports the liver and its detoxifying properties, and has powerful antioxidant activity. Turmeric is difficult to absorb, so BioPerine® is added to enhance bioavailability.*

¹ Unlike inflammation associated with disease states, metabolic inflammation is a healthy body's response to everyday stressors such as poor diet. When imbalanced, it challenges the body's ability to achieve optimal health.*
