Not Just Any Elderberry

Grown in Styria, Austria, **ElderCraft® European Black Elderberry Extract** is considered by many as the finest in the world.

This fertile region is known most for exquisite groves of **Haschberg-variety elderberry trees**, which have been nurtured by farmers for generations.

Once fully ripe, big clusters of berries naturally rich in **anthocyanins, polysaccharides and berry micronutrients** are harvested.

After completing a journey to a state-of-the-art facility, the berries undergo a **solvent-free extraction & ultra-filtration process**, which creates an active blend rich in beneficial compounds to support **immune health**.*
