

USAGE: Take 1 capsule up to 3 times per day with a meal or as directed by your qualified healthcare professional. Best kept refrigerated.

Phosphatidylserine (PS) is a natural phospholipid that is an essential component of cell membranes.* Cogni-PS® promotes brain function by helping maintain neuronal membrane fluidity (cell to cell communication), which is associated with cognition, mental performance, attentiveness and reaction time.* PS protects against stress-induced activity, reducing the action of cortisol (catabolic stress hormone).*

Cogni-PS® is a concentrated form of phosphatidylserine that offers superior stability.

Keep out of the reach of children.
