Our **Most Advanced** Technology

Heartburn Relief not only neutralizes excess acid, but also contains ingredients that form a protective raft between the acid and the esophagus, keeping the acid where it belongs.*

"Frequent heartburn medications have been linked to a variety of side effects, including dementia, heart disease & cancer. However, Heartburn Relief, for occasional heartburn, quickly eliminates discomfort without these risk factors."

Dr. Michael Murray

Author of over 30 books on the healing power of nature
