

Enzymedica
Supports

Serrapeptase is a proteolytic enzyme (an enzyme that breaks down protein) that has been popular in Asia and Europe for almost thirty years. It has been studied for its ability to promote healthy inflammatory responses, improve circulation and support cardiovascular function.*

SerraGold™ contains high-potency Serrapeptase combined with a blend of proteolytic enzymes known to support mobility, immune function, and cardiovascular, sinus and systemic health.* The vegan serrapeptase in **SerraGold** eliminates the need for enteric coating.

Recommended Use: 1 capsule daily on an empty stomach, one hour before or two hours after a meal. More may be taken as needed.

Thera-blend™ is an exclusive process that combines multiple strains of enzymes that work in specific pH levels, resulting in superior performance in the body.
