

The immune system is constantly faced with the challenge of protecting the body from environmental threats. Nearly all threats contain a protein component that the immune system must identify and break down. Enzymes that break down protein (proteolytic) can support this immune process.* When the immune system is functioning optimally, systemic health is enhanced.

Enzyme Defense™ contains an enzyme blend that provides support to purify the body and assist in removing proteins that do not belong in the bloodstream.* This allows the immune system to focus on areas of need. Additional enzymes are included to break down excess mucus and promote healthy circulation.*

Recommended Use: 1 capsule twice daily on an empty stomach, one hour before or two hours after a meal.

Caution: Consult with physician prior to use if pregnant or nursing, taking medications or have a medical condition.

Thera-blend™ is an exclusive process that combines multiple strains of enzymes that work in specific pH levels, resulting in superior performance in the body.

NO FILLERS ADDED
