NO SUGAR ADDED

NO COLORING, PRESERVATIVES OR FLAVORING

The NATURELO Difference

Collagen is a major protein in your body. It's what gives structure, strength, and elasticity to your skin, bones, and other tissues. As collagen production naturally declines with age, our tissues begin to lose their strength and resilience. Our Collagen Peptides Powder is an easily digestible form of collagen that provides the building blocks to support skin and joint health.* It includes both Type I collagen, which supports skin, bone, and eye tissue, and Type III collagen, which supports the blood vessels and gut lining.*

Helpful Tip: Collagen Peptides may clump in cold water. To enjoy Collagen Peptides in cold liquid, simply mix into room temperature liquid first and then add ice.

Storage Information: Store in a cool (<77°F), dry place. Keep lid tightly sealed. Do not expose product to excessive light, heat, or moisture.

Caution: Keep out of reach of children. As with any supplement, if you are pregnant, nursing or taking medication, consult your doctor before using this product. Do not use if safety seal under the lid is broken or missing.

Note: The daily serving of 10 grams per scoop is an average. Individual scooping technique may yield slightly less or slightly more than 10 grams. This product is packaged by weight, not by volume. Settling of the powder occurs over time which may reduce volume, but weight remains the same. Variations in aroma, color, taste and solubility may occur.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

Suggested Use: Adults mix one (1) - two (2) scoops daily into your favorite beverage or meal and mix thoroughly.
