

Advantages of VersaCARB

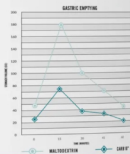

Low Glycemic Index & Minimal Blood Sugar Response

Unlike maltodextrin-based supplements, which can cause unnatural spikes and crashes in blood sugar levels, VersaCARB is a source of clean, sustained energy*. It is perfectly suited to the physical demands of dedicated athletes, busy professionals, and those attentive to maintaining a healthy weight*. In a study performed on Carb10®, the carb source of VersaCARB, subjects had an 82% lower insulin response and 27% lower blood sugar response than subjects taking maltodextrin†.

Low Osmolality & Fast Gastric Emptying

VersaCARB passes quickly into the large intestine rather than sitting in your stomach for too long, while other carbohydrate powders will leave you feeling bloated†. Note the difference in measured stomach volume in subjects taking Carb10®, as in VersaCARB, compared to maltodextrin, as found in most other carbohydrate powders.

Ingredients: High Amylose Polysaccharide (Pisum Sativum [as Carb10®])

Manufactured for PEScience LLC (3665 East Bay Dr. #204-155 Largo, FL 33771 USA. Ph: 888-885-0195)

GLUTEN FREE. VEGAN. NON-GMO

DIRECTIONS: Mix one scoop in 10-12 oz water, juice, or your favorite beverage.

VersaCARB dissolves white in water with a couple shakes. The very light texture makes it easy to drink and mix with your favorite juice, beverage, or just water. The powder will settle after a few minutes, but easily mixes back into solution.

STORE IN A COOL, DRY PLACE. CONTENTS SOLD BY WEIGHT NOT VOLUME.
