## HEART-HEALTHY ENERGY

Too many energy supplements are designed without heart health in mind. Some energy boosters – stimulant-packed energy drinks, for instance – can narrow blood vessels, which forces your heart to work harder to pump blood throughout your body.

That's why the scientists at Force Factor® developed these Total Beets™ soft chews as a safe source of heart-healthy energy. These delicious chews include nitrates and antioxidants, and help give you an anytime energy boost to tackle whatever life throws your way. This superfood formula features beetroot extract, blended together with antioxidant-rich grapeseed extract in a tasty açai berry chew with no bitter beet aftertaste.

No matter what you are looking to accomplish, Total Beets soft chews help deliver a clear boost of energy specifically formulated with cardiovascular health in mind so you can fully Unleash Your Potential®.

# UNLEASH YOUR POTENTIAL.
