† Colony Forming Units

**FiberAid® and logo are Lonza Trademarks.

Our probiotic strains are stabilized using a patented poly matrix system (patent # 6,653,062) that provides 35 billion CFU† through expiration date when stored at room temperature.

Each Bio-Enhanced, Acid Resistant Strain (BEARS) has been specifically designed to survive stomach acid secretions during digestion eliminating the need for enteric coating.

Each ultra high probiotic capsule contains a minimum of 35 billion CFU† per serving. This eight strain proprietary blend supports and nurtures good intestinal flora for a healthy digestive system.†
