

Calcium, Magnesium, D3 and K2 are vital for the formation of strong bones and teeth. More importantly, they are essential for a healthy, strong immune defense. They support muscular growth, healthy heartbeat, healthy gums and the transmission of nerve impulses. They support healthy neural, muscular, blood vessel and cardiovascular function. These critical nutrients not only support countless organs, but each mineral promotes the optimal absorption and utilization of the others.\*

Free from artificial colors and artificial preservatives. Free from the allergens eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat and sesame.
