

NaturesPlus®

VITAMIN D3 10,000 IU (250 mcg)

Bone & Immune Support*

60 Softgels | DIETARY SUPPLEMENT

Research suggests that vitamin D may be your single most important supplemental nutrient. Required for optimal calcium absorption, vitamin D promotes strong bones and is vital support for a healthy immune system.*

Vitamin D is obtained from the diet or from sun exposure. However, vitamin D is not abundant in foods and people are increasingly avoiding the sun. This high-potency supplementation is necessary to ensure healthy levels of this key nutrient.*

WARNINGS: For adults only. Do not exceed recommended serving. Consult your health care practitioner prior to use if you have any medical condition, if you have a kidney disorder or hypercalcemia, if you are taking prescription medication, or if you are pregnant or nursing.

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

PRODUCT NO. 1048

DIRECTIONS: For adults, one softgel daily, or as directed by your health care practitioner. Do not exceed one softgel per day.
