

Sugars and starches in the diet require enzyme activity in order to be absorbed. **NaturesPlus® Sugar Armor®** inhibits and slows down that enzymatic activity. Moderating the sugar and starch absorption in each meal will shift your weight management efforts into overdrive, delivering amazing results.*

The secret to **NaturesPlus Sugar Armor** is in its dual-action shielding system. 500 mg of InnuGuard™ inulin fiber from chicory surrounds the sugars and starches you eat, making them more difficult to digest and absorb. Meanwhile, 250 mg of sugar-blocking brown seaweed extract further inhibits sugar and starch digestion, limiting the impact of these carbs. **NaturesPlus Sugar Armor**, and a sensible approach to sugary and starchy foods, can improve your weight management success!*

DIRECTIONS: As a dietary supplement for adults, take two capsules prior to each meal.

Caution: Sugar Armor will reduce the impact of dietary sugars, but dieters should still avoid excessive levels of sugars or calories.

Not intended for women who are pregnant or nursing, or anyone with any medical condition.

KEEP TIGHTLY CLOSED IN A COOL, DRY PLACE.

KEEP OUT OF REACH OF CHILDREN.

Free from artificial colors and preservatives. Free from yeast, milk, eggs, soy, tree nuts, peanuts and wheat.
