

Zinc is essential for health and found in cells throughout the body. It promotes healthy growth and repair in all organs of the body and helps the immune system perform its critical role in defending the body. Zinc also supports protein synthesis, bone and collagen formation and the protection and production of DNA. Needed throughout all phases of life, including pregnancy, zinc promotes wound healing, blood clotting and thyroid function. It is also important for the proper senses of taste and smell.*

Free from artificial colors and artificial preservatives.

KEEP TIGHTLY CLOSED IN A COOL, DRY PLACE.

KEEP OUT OF REACH OF CHILDREN.
