Nectar® Medical is a 100% natural protein formula designed to exceed even the most stringent and demanding requirements of the medical community. It is designed around Promina™, a superior-quality whey protein isolate that is known for its utmost purity, unwavering consistency and pleasant taste. Whey protein isolate is considered by many experts to be the single highest-quality source of protein for human nutrition. Its bioavailability is without compare, and its amino acids are utilized more efficiently than any other source of protein.

Because Nectar® Medical has a bland taste and is instantly soluble and dispersible, it can be mixed unnoticeably and easily into nearly any beverage or food item, such as milk, tea, juice, flavored water, cereal, soup, pudding or mashed potatoes. Likewise, Nectar® Medical is an ideal product to be used in tube-feeding applications due to its ease of use and health-promoting benefits.

Nectar® Medical is specifically formulated to be used as a medical food for renal (dialysis) patients. Meeting the distinctive needs of these individuals, Nectar® Medical provides a superior protein source with low levels of potassium and phosphorous.

Nectar® Medical is specifically formulated to be used as a medical food for bariatric surgery patients. Meeting the distinctive needs of these individuals, Nectar® Medical provides an easily digestible, superior protein source with low levels of fat, sugar and total carbohydrates.

DIRECTIONS FOR ORAL USE: Based on protein requirements, vigorously mix one to two scoops of Nectar® Medical per 4–16 oz of your favorite beverage or food until thoroughly blended. When adding to foods or warm liquids, add protein slowly while stirring. Do not add to liquids above 130°F to prevent denaturing of protein.

DIRECTIONS FOR TUBE-FEEDING USE: Mix one scoop per 2–6 oz of water until desired consistency is achieved. Stir until completely dissolved. Administer by syringe through feeding tube.

Nectar® Medical is not nutritionally complete and should not be used as a sole source of nutrition. Not for parenteral use. This product is not intended to diagnose, treat, cure or prevent any disease. Notice: Use this product as a food supplement only. Do not use for weight reduction.
