*Sold only for dispensing by a licensed health care professional. Pregnant and/or lactating women should consult their physician prior to use.*

**TAMPER EVIDENT RESEALABLE BAG. DO NOT USE IF BAG HAS BEEN OPENED. KEEP OUT OF REACH OF CHILDREN.**

Pure creatine monohydrate, a precursor to creatine phosphate, which is necessary to fuel muscle contractions. Creatine plays a vital role in the creation of ATP, the primary compound which converts food into energy. When high concentrations of creatine are present, the body can quickly release ATP to sustain high-powered muscle contraction.
