

RECOVER EAA

RECOVER EAA strictly contains the 9 Essential Amino Acids the human body cannot produce on its own. Research suggests that supplementing with proper doses of these 9 Essential Amino Acids increases muscle protein synthesis, prevents muscle breakdown, enhances performance, improves metabolism and speeds up recovery. RECOVER EAA provides you with a MASSIVE DOSE of over 14g of Essential Amino Acids, consisting of a WHOPPING 10g of Branched Chain Amino Acids at the scientifically proven 2:1:1 ratio, and a LOADED 4g combo of L-Lysine & L-Threonine, both often overlooked Essential Amino Acids yet extremely crucial to muscle tissue growth and the recovery process. RECOVER EAA is also loaded with Potassium and Pink Himalayan Salt to help keep you hydrated during exercise.*
