Collagen is the primary structural protein found in joints, bones, skin, nails, and other connective tissues. It is responsible for maintaining the strength and elasticity/flexibility of these tissues found throughout the body.

Our **CollagenUP®** complex contains unique, enzymatically hydrolyzed, Marine Collagen Peptides with Hyaluronic Acid and Vitamin C. Our specially processed Marine Collagen is enzymatically hydrolyzed (broken down) into amino acid peptides in order to assist with absorption/bioavailability. Taken as a dietary supplement, this product provides the fundamental building blocks for support of healthy hair, skin, nails, joints, & bones, providing the body with the nutrients needed to support the strength and integrity of our bodies.*
