

THE ISOJECT™ DIFFERENCE -ADVANCED PROTEIN RELEASE TECHNOLOGY

When going to every extreme to create the most effective whey isolate in existence, you have to go to equal extremes when developing the flavor. Evogen Nutrition has done just that. However, 100% pure proteins that also taste great and utilize the latest technology didn't exist until now. This is why Isoject is setting the standard for **GREAT TASTING 100% WHEY ISOLATE WITH ONLY 120 CALORIES PER SERVING**. It utilizes cutting edge triple cold-filtered whey isolate which undergoes sensitive nano-filtration to preserve the quality of its ultra-pure whey isolate. There's zero low-quality whey isolate infusion and you can be rest assured this formulation meets label claim.†

The IGNITOR™ Difference in Glutamine Release (measured in mg)

The amount of IGNITOR™ in one serving of Isoject allows 100% more glutamine from whey protein than all 4 leading enzyme competitors. And 400% more glutamine than whey protein from endogenous enzymes alone.†

Nicknamed "The Pro Creator," Hany Rambod has been constructing championship-winning physiques for over 20 years while using his ground-breaking PST-7 training system. Rambod prides himself on bringing only quality innovations to his customers around the world. The formulations within the Evogen Nutrition supplement line are crucial to the success of any ultra-intense training regimen because of their effect on muscle growth, repair, and muscle volume.†

synthetic flavor free

The IGNITOR™ Difference in BCAA Release (measured in mg)

The amount of IGNITOR™ in one serving of Isoject releases 250% more BCAAs than a leading enzyme competitor, and 250% more than ISOAA from whey protein than endogenous enzymes alone.†

Even better, it employs an all-new proteolytic enzyme technology to maximize protein breakdown into crucial growth and repair amino acids. These specifically target leucine, valine, isoleucine, and glutamine. This precision enzyme technology ensures maximum release and absorption of these key amino acids for rapid effects. This breakthrough IGNITOR™ Enzyme Technology is a breakthrough first to market by Evogen Nutrition.† It supports your body's ability to rapidly breakdown protein, facilitate repair and recovery while potentially reducing stomach discomfort. All in all, Evogen Nutrition is redefining the standard when it comes to an incredible tasting ultra-pure whey protein isolate.†

INGREDIENTS: Cold-Filtered Whey Protein Isolate, Cocoa processed with Alkali, Natural Flavors, Salt, Xanthan Gum, Sunflower Lecithin, (Endopeptidase and Exopeptidase (as IGNITOR™ Enzyme), Monk Fruit, RebAudioid A (Stevia).

ALLERGEN INFORMATION: CONTAINS MILK.

DIRECTIONS: Mix 1 scoop of Isoject per 6oz. of cold water, milk, or protein beverage in a shaker cup, glass, or blender. Mix thoroughly before consuming.

WARNING: This product is only intended to be consumed by healthy adults 18 years or older. Always consult with your physician using this or any dietary supplement product or starting any exercise training program or diet. Do not use this product if you are pregnant or nursing. Discontinue use and immediately contact your health professional if you experience any adverse reaction to the product. Follow all instructions and do not exceed recommendations for suggested use. Do not use if safety seal is broken or missing. **KEEP OUT OF REACH OF CHILDREN.**

SUGGESTED USE: Evogen Nutrition's Isoject is best used as part of a well-balanced diet that includes whole foods, and other protein sources. Individual nutritional requirements vary depending on gender, body weight, level of activity and exercise/training intensity. However, in general, consuming at least 1 gram of protein per pound of body weight spread evenly throughout the day is recommended.

>> As a male weightlifting for strength or physique oriented goals, add 2 scoops of Isoject to 6-12oz. of cold water, milk, or other beverage or mix.

>> Female: add 1 scoop of Isoject to 6oz. of cold water, milk, or other beverage or mix.

>> As part of a general health and wellness diet, and lifestyle, add 1 scoop of Isoject to 6oz. of cold water, milk, or other beverage or mix.

NOTICE: USE THIS PRODUCT AS A FOOD SUPPLEMENT ONLY. DO NOT USE FOR WEIGHT REDUCTION. STORE IN A COOL, DRY PLACE.
