

Bone Health is Built On Calcium... and More!

Liquid Calcium Magnesium maintains optimum bone health* and calcium may reduce the risk of osteoporosis.^{1†}

- Features a highly-concentrated and bioavailable form of calcium plus magnesium*
- Vitamin D and boron promote the absorption of calcium*
- Easy-to-swallow, delicious liquid formula

Giving your bones what they need has never been easier... or more delicious!

^{1†}Osteoporosis affects middle-aged and older persons. A lifetime of regular exercise and a healthy diet that includes calcium builds and maintains good bone health and may reduce the risk of osteoporosis later in life. Daily intakes above 2,000 mg are not likely to provide any additional benefit to bone health.
