

SUGGESTED USAGE: As a dietary supplement, take 1 capsule daily between meals or on an empty stomach, or as directed by your healthcare practitioner.

KEEP REFRIGERATED TO MAINTAIN POTENCY.

HOW IT WORKS: ProtoDophilus™ is a broad spectrum probiotic supplement with 50 Billion live organisms per capsule. Consisting of probiotic bacterial strains that are known to naturally colonize the human GI tract, ProtoDophilus™ can aid in maintaining healthy flora populations throughout the entire intestinal tract.* FOS is included to help maintain the viability and promote the growth of *Acidophilus* and *Bifidus* organisms.*

CAUTIONS/INTERACTIONS: Probiotic supplements may cause mild, but transient GI discomfort. Individuals with severe immune system deficit should consult their healthcare practitioner before taking this product. Because antibiotics may inactivate some probiotic bacteria, take at least 2 hours before or after taking antibiotic medications.
