

It's no secret that the brain and eyes are closely connected. That's why we made Neuriva® Brain + Eye. We took our hero ingredient, Neurofactor®, which supports brain health, and added Lutemax®, an ingredient clinically tested and shown to support eye performance.*

NEUROFACTOR® (COFFEE CHERRY)

Made from the nutrient-rich fruit of the coffee cherry, this whole fruit extract is decaffeinated and has been clinically tested and shown to increase levels of the vital neuroprotein BDNF, known to strengthen connections between brain cells.*

LUTEMAX®

Naturally derived from marigold extract, Lutemax has been clinically tested and shown to support key indicators of eye health.*
