

The Aplodan Advantage

Unlock Muscle Size and Strength

With Aplodan™, you now have in your hands the key to unlocking strength you never knew you had, and as a result, the ability to trigger more muscle growth than you ever thought possible. But to do it, you must understand the full power of Aplodan and how it tackles the single greatest problem holding you back from getting as big and as strong as possible – untapped dormant muscle fibers.▲

Trigger Dormant Muscle Activation

In every bundle of muscle fibers within your body, you have several clusters of muscle fibers that are dormant and don't materially function or contribute to improving muscle size. During a typical workout, you never actually stress your muscles enough to trigger growth in these dormant muscle fibers. But now, after utilizing years of research including clinical research at the University of Milan, Team MuscleTech™ has engineered Aplodan – the world's first and only dormant muscle fiber activator that allows you to increase muscle fiber activation by an average of 83%! It's the key to unlocking the potential for new muscle that's been locked away in your body for years!▲

The Scientific Research Behind Aplodan

Over 30 independent scientific studies have examined the multiple performance and metabolic effects of the revolutionary Aplodan complex. In just one of these studies, Aplodan was shown to increase stimulation for greater muscle fiber activation in as little as 7 days!† To accurately measure the power of the Aplodan formula researchers used an isometric grip test (the widely accepted device used to measure raw power and strength). By the conclusion of the study subjects were able to achieve muscle tension thresholds that were 83% greater than baseline (1.74 vs. 3.18 mins.) proving Aplodan's potent effectiveness! In a separate battery of tests, sprinters taking Aplodan increased their speed/power by increments that would normally take years to develop! The bottom line is that Aplodan is the only supplement of its kind that gives you the ability to be strong enough in the gym to activate dormant muscle fibers!▲

Rapid Delivery of Aplodan

Designed with special rapid release technology, the Aplodan complex starts working quickly. It drives itself inside your muscle fibers affecting the internal metabolic machinery for improved muscle fiber activation. Aplodan's unique molecular structure is designed to manipulate the metabolic environment deep within muscle fibers, promoting activation, and subsequently allowing you to train with the type of intensity necessary to allow you to trigger the growth potential that lies within dormant muscle fibers.▲

Aplodan Takes the Bodybuilding World by Storm!

As a supplement with an extremely impressive history, research backing, and human clinical trials to prove its potent effects, millions of bodybuilders everywhere are now educating themselves on dormant muscle fibers and how Aplodan is the first and best way to activate them. Right on the heels of the most popular group of supplements like **naNO₂**™, **GAKIC**®, **LEUKIC**™, and **Anator-p70**™, Aplodan is poised to be the biggest supplement to ever hit bodybuilding! Awaken the untapped muscular growth potential you have inside you right now and build massive size and strength the Aplodan way.▲

Serving Size 1 Caplet
Servings Per Container 63

Amount Per Serving	% Daily Value
APLODAN™ 1010 mg	†
2-(carbamididoyl-methyl-amino)ethoxyphosphonic acid	†
1,2-dithiolane-3-pentanoic acid	†

† Daily Value not established.

OTHER INGREDIENTS: MICROCRYSTALLINE CELLULOSE, DICALCIUM PHOSPHATE ANHYDROUS, STEARIC ACID, COATING (HYDROXYPROPYL METHYLCELLULOSE, POLYDEXTROSE, TITANIUM DIOXIDE, TALC, MALTODEXTRIN, FD&C BLUE NO. 2, MEDIUM CHAIN TRIGLYCERIDES, FD&C YELLOW NO. 6, FD&C RED NO. 40, SODIUM CARBOXYMETHYLCELLULOSE, DEXTROSE MONOHYDRATE [MAY CONTAIN CORN AND WHEAT], MICA, SOY LECITHIN, CROSCARMELLOSE SODIUM, SILICON DIOXIDE, MAGNESIUM STEARATE, SUCRALOSE.

DIRECTIONS: (a) For the first week: Take 2 servings (2 caplets) of Aplodan, 3 times daily.
(b) From second week onwards: Take 1 serving (1 caplet), 3 times daily.

WARNING: Not intended for use by persons under 18. Do not use if pregnant or nursing. Consult a medical doctor before use if you have been treated for or diagnosed with, or have a family history of any medical condition or if you are using any prescription or over-the-counter medication(s). Consult a medical doctor before starting any diet or exercise program. Do not exceed recommended serving. Improper use of this product will not improve results and is not advised. Use only as directed. Do not use if imprinted seal under cap is broken. Store in a cool, dry place (60°F to 80°F). **KEEP OUT OF REACH OF CHILDREN.**
