Rejuvenate your body with clean, functional protein.

We believe that collagen protein is a missing link in many modern diets. Using it consistently can be one of the best ways to support joint health, lean muscle, and strong connective tissue.*

This is why we start with the collagen-rich hides of grass-fed cattle, a resource that would otherwise be discarded, and turn them into an odorless, tasteless protein powder that you can add to just about anything.

How to get started:

COFFEE & TEA: Stir 1 level scoop into hot coffee or tea. **SMOOTHIES:** Add 1 scoop to your favorite smoothie recipe for a boost of clean protein. **BAKED GOODS:** Add 1 level scoop to your favorite pancake, waffle, or baking mix.
