Experience the healing power of clean protein.

We believe in the healing power of traditional, whole-animal foods like bone broth, an ancient health elixir that may support immunity, gut health, joint rejuvenation, and overall wellness.*

This is why we start with the protein rich bones of grass-fed U.S. beef cattle, a resource that would otherwise be discarded, and slow simmer them for hours to extract vital nutrients such as types I, II, and III collagen. Then, we dry the broth into a convenient powder so you can benefit from real bone broth every day.*

How to get started:

PROTEIN SHAKES: In a shaker cup, mix 1 level scoop with 12oz cold grass-fed milk or almond milk. **SMOOTHIES:** In a blender, combine 1 level scoop with 12oz cold grass-fed milk or almond milk, 1 cup frozen greens, ½ cup frozen fruit, and 1 tbsp MCT oil. **BAKED GOODS:** Add 1 level scoop to your favorite pancake, waffle, or baking mix.
