

Doctor's Best Fully Active Folate 800 with Quatrefolic® contains **Quatrefolic®**, the glucosamine salt of (6S)-5-methyltetrahydrofolate, the most bioavailable form of folate, that provides greater stability and water solubility.*

Our bodies cannot synthesize folate and due to its water-soluble nature, the body stores folate to a limited extent. Folic acid, and food folate, needs to be converted to its metabolically active form to be utilized by the body. Quatrefolic® is the metabolically active folate, making it more efficient than folic acid for maximized benefits!*

Folate helps support a healthy prenatal regimen along with a healthy diet and lifestyle. It also helps support healthy fetal brain and spinal development.* Folate is an essential vitamin to support DNA, proper cell division, cardiovascular, mental and emotional well-being.*

Helps support a healthy prenatal regimen along with a healthy diet and lifestyle*

Helps support healthy fetal brain and spinal development*

Quatrefolic® is the most bioavailable form of folate*
