

Doctor's Best Gluten Rescue with Glutalytic® is a patented blend of enzymes that aids in digestion of gluten, as well as egg, soy and dairy proteins. Most products that aid in the digestion of gluten only use a singular enzyme approach, however Gluten Rescue is uniquely designed to break down gluten proteins faster by attacking the peptide bonds in two ways. This makes Gluten Rescue with Glutalytic® superior to current gluten aids on the market today that rely primarily on the DPPIV enzyme.

Helps promote good digestive health*
Helps support normal digestion of foods containing wheat, barley, and rye grains*
Helps promote proper immune response to gluten protein*
