

Doctor's Best Hesperidin Methyl Chalcone contains Hesperidin, a flavonoid derived from citrus fruits that many experts believe has synergistic activity with vitamin C.* While Hesperidin in its original form is not very water soluble, Hesperidin Methyl Chalcone is highly water soluble for greater absorption in the gastrointestinal tract.* The antioxidant activity of hesperidin helps neutralize free radicals, supports blood vessels, circulatory health, and vascular integrity. Hesperidin also helps support vein and capillary strength.*

Helps support vein and capillary strength*

Helps support blood vessel, circulatory health and vascular integrity*
