

Doctor's Best High Absorption Iron with Ferrochel™ contains chelated iron to help increase bioavailability. Chelation helps iron to be optimally absorbed by our body, and is well-tolerated by the digestive system.*

Iron is an essential mineral that helps in the production of normal red blood cells. It is an important component of hemoglobin which carries oxygen throughout the body.*

Iron plays an important role in the metabolism of folic acid, which is important for fetal nervous system development.* The most common cause of anemia is iron deficiency.* Ferrochel™ Iron is chelated with bisglycinate amino acids, providing high absorption and increased tolerability.*

Supports

- The body's adequate iron supply*
- Immune health*
- Cell production*
