

Give your locks some love. Our hair is comprised of up to 95% keratin, a key protein that structurally builds our hair, skin, and nails. KeraGLO® hydrolyzed keratin contains amino acids to nurture developing cells that grow and form strands of lustrous-looking hair. Since this starts with the formation of the hair cuticle, it encourages hair brightness and density as it grows.*

Supports

- Hair brightness, density, and volume*
- Protection against hair damage from heat treatment*
- Age-related hair decline*
