

Doctor's Best Ubiquinol with Kaneka Ubiquinol™ contains the reduced form of coenzyme Q10. Both ubiquinol (CoQ10-H2) and ubiquinone (CoQ10) are metabolically active. Each form has unique roles in cells relating to antioxidant actions, supporting healthy heart function and enhancing energy production.* Ubiquinol helps regenerate other antioxidants, such as vitamin C and E.* It may offer improved bioavailability in aging adults who may have difficulty achieving high levels of this nutrient, or those concerned with nutrient absorption.*

- Helps support mitochondria to enhance cellular energy production***
- Helps support healthy heart function***
- Ubiquinol is a powerful antioxidant***
