

Pregnenolone is often called "The Master Hormone" because it can be converted into many other steroidal hormones. Both Pregnenolone and DHEA are naturally produced in the body by the adrenal glands. Because production levels slow with age, supplementation may help to support more youthful levels.*

Emerald® is committed to creating only clean, pure, additive-free products. You can be 100% certain that our ingredients are in the purest form possible.

* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent disease.

This product is 100% Lab-Grown, Salt-Free, Soy-Free, Sugar-Free, Artificial Flavors and Preservatives.
