

Vital Proteins' Matcha Collagen is an antioxidant powerhouse and a great source of natural energy.*

We believe that whole-food-based nutrition containing collagen is beneficial for looking and feeling your best.** Compared to our ancestors, our diets today contain less collagen, and this natural protein has been removed by modern food processing. We are committed to providing products that help supplement and enrich your diet with collagen.

An antioxidant powerhouse, our matcha is an authentic and high-quality superfood sourced from pristine Japanese farms. Offering a boost of energy thanks to its green tea roots and amino acid L-Theanine, matcha is perfect for a clean, natural pick-me-up. Combined with 10g of collagen peptides, this blend is great for healthy hair, skin & nails, bone & joint health, and digestion.** Plus, it's great tasting with just a touch of sweetness thanks to coconut water.
