

CATALO BioSil™ Hair Vital Advanced Formula is made from patented choline-stabilized orthosilicic acid (ch-OSA®) together with Vitamin C, which create larger hair roots by stimulating collagen synthesis, and hence increase nutrients delivery to the hair follicle. It is clinically proven that the average thickness of hair and hair strength drastically increases with BioSil™ after 36 weeks of consuming daily 2 capsules of BioSil™ Hair Vital Advanced Formula.¹ CATALO BioSil™ Hair Vital Advanced Formula works from the 'inside out', where genuine improvement takes place, giving your hair the volume, strength and radiance it deserves. The increased collagen beneath the surface of the skin 'pushes up' and smoothes out the skin. It also promotes strong and even-toned nails.

Main Functions:

- Improve hair volume by significantly increasing hair thickness
- Help strengthening your hair and increasing break resistance
- Allow your hair to shine with radiance
- Improve skin elasticity and reduce wrinkles
- Strengthen and beautify nails

Suitable for: Men and women with hair loss, white, weak and thin hair, with strong secretion of pomade, want to improve hair health and reduce hair loss due to stress
