

CATALO Children's Probiotics Formula uses BLLA Natural Probiotics Complex, a proprietary blend of beneficial bacteria (probiotics), which is especially good for children's digestive system. *Bifidobacterium lactis* is clinically proven to promote digestive health and boost immune functions for infants as young as 1 month old and above.¹

CATALO Children's Probiotics Formula enhances children's bowel movements, and strengthens their natural defense against occasional digestive upset. It can also enhance immunity, soothe sensitive skin symptoms in young children, and improve overall health.² The BLLA Natural Probiotics Complex is encapsulated in vegetarian capsule and sealed individually in blister pack, which effectively stabilizes the potency of active cultures.[#] CATALO Children's Probiotics Formula helps to combat your precious children's tummy issues!

Main Functions:

- Maintain positive balance of intestinal flora and promote bowel movement
