

CATALO Children's DHA IQ Fish Formula (Lutein Added) is made from unpolluted small ocean fishes by special technology to preserve the oil integrity and provide ultra-purified ocean fish oil with no added sugar. A serving provides 200mg DHA and 42mg EPA, with its high proportion of DHA in the ratio of about **DHA 5:1 EPA** is specially formulated for promoting the brain and eye development, learning ability including concentration, memory power and problem solving skills for children. It also contains patented ingredient TMFloraGLO Marigold Extract to provide standardized 20% lutein which protects eyes against damages caused by harmful blue light from digital screens and thereby supporting macular and overall eye health. CATALO Children's DHA IQ Fish Formula (Lutein Added) is specially encapsulated in a unique chewable softgel with natural strawberry flavor, it tastes great and is easy to chew. Children simply love it!

- Main Functions:**
- Support brain development and higher intelligence
 - Promote learning ability and memory power
 - Protect macula by filtering harmful blue light from digital screens
 - Better eye development and visual acuity

Suitable for: Children in the developing or learning stage, concerned about children's brain and eye development, unbalanced diet, long hours on digital screens

The product will contain small white particles (Ascorbyl Palmitate) and reddish precipitates (TMFloraGLO Lutein). It does not affect product quality.
