

CATALO FLEXIJOINT™ FORMULA offers a comprehensive joint care. This formula contains premium natural ingredients that support joint health against aging.

4 Premium Natural Ingredients

① **Proprietary Cetylated Complex Formula**, has been clinically proven to support healthy joint motion, promote joint mobility, flexibility and relieve joint pain.* It has been shown to have dramatic result on relieving joint discomfort and accelerating joint recovery.

② **Hyaluronic Acid (HA)**, enhances body to restore fluids that cushion bones and joints by increasing joint fluid and supporting cartilage synthesis in the joints thus lower the chance for deterioration.

③ **Hydrolyzed Collagen Type II**, can restore joint cell membranes throughout the body, especially working in joints to maintain the fluids that cushion the end of the bone. As a result, the pain and discomfort are minimized.

④ **Depolymerized Chondroitin Sulfate**, smaller molecules of Chondroitin Sulfate enhance the absorption rate. It supports healthy joint function by strengthening cartilage and joint structure.

Suitable for: Inflexible joints, unsmooth joint movement, engaged in vigorous exercise, joint degeneration, injured joint, joint pain, discomfort during weather change, people on high heels, elderly, overweight people
