

Vegetarian D3 Spray contains vitamin D3 which is an essential nutrient for bone, immune, and heart health. It can be self-synthesized through exposure to sunlight but many of us do not get the amount needed every day. This vitamin D3 spray is the optimal choice for you to make sure you get the vitamin D3 with no preservatives or artificial flavors and colors.

- 1000IU per serving - A serving is all you need to get the daily amount of vitamin D3
- Vegan D3 - Extracted from natural Lichen and suitable for vegan
- Convenient to serve - Can be sprayed directly into the mouth, or on your favorite food or beverage so your meals are always enriched
- Better absorption - Tiny vitamin D3 droplets can be absorbed faster than tablets
