

Multivitamins are a combination of many different vitamins and minerals normally found in foods and other natural sources. All our vital organs and systems, including the immune system, heart, lungs, muscles and brain, require vitamins and minerals. Multivitamins are used to help supplement the nutrients that we do not get enough of, or are not able to obtain, through our normal diet to promote overall health.*

Free from artificial colors and artificial preservatives. Free from the allergens milk, eggs, fish, crustacean shellfish, tree nuts, peanuts, wheat and sesame.

V VEGAN **GF** GLUTEN FREE
