NEOLIFE[®] Garlic Allium COMPLEX

Garlic phytonutrients help to retain healthy blood pressure and cholesterol levels, support healthy immune responses, and promote normal cell growth and renewal (especially in the gastrointestinal tract).*

Garlic Allium Complex includes the whole food garlic components, allin and allinase. Our exclusive Targeted Delivery Technology ensures these key components are delivered to the digestive tract, where they react together to produce over 4,200 mcg of fresh, active allicin ready for absorption. Allium vegetables provide allicin equivalent to a full clove of garlic, 10x extracts of garlic and onion, S-allyl cysteine, and a complete lipid profile of garlic and onion oleoresins.

Store in a cool, dry place, away from direct sunlight.
