GAMMA VITAMIN E

400 MG TOTAL TOCOPHEROLS

315 MG GAMMA TOCOPHEROL

360 Easy-to-Swallow Capsules

Andrew Lessman's GAMMA VITAMIN E is a unique, high potency Vitamin E formula focusing on the most active and protective form of Vitamin E – **Gamma Tocopherol**. It is 100% natural and dramatically different from the Vitamin E formulas found in stores, because it focuses on the most beneficial form of Vitamin E, while also including all four naturally-occurring Vitamin E tocopherols. For decades, Vitamin E supplements have been among the most popular in order to compensate for the extremely low levels of Vitamin E in the typical American diet. Unfortunately, typical Vitamin E supplements only make matters worse, since they contain less active and synthetic forms of Vitamin E. **Gamma Tocopherol** is the most protective and abundant form of Vitamin E in nature, yet is absent from typical store-bought Vitamin E formulas. The unfortunate result is that most Americans unwittingly consume Vitamin E supplements that bear no resemblance to the Vitamin E in food. Our **Gamma Vitamin E**, on the other hand, provides 400 mg of all four natural Tocopherols (Alpha, Beta, Gamma and Delta), including more than 300 mg of all-important **Gamma Tocopherol** – Mother Nature's preferred and most protective form of Vitamin E.

CONTAINS NO Milk, soy, yeast, corn, wheat, gluten, sodium, salt, sugar, cholesterol, color, preservative, common allergens or manufacturing additive.

CONTAINS NO ADDITIVES OF ANY KIND.
