Andrew's Own ULTIMATE WHEY PROTEIN ISOLATE is the result of Andrew's long search for the perfect whey protein. It contains an ideal balance of amino acids and mixes easily – even without a blender. It does not contain undesirable amounts of carbohydrate, lactose, sugar, saturated fat, cholesterol or sodium. It is non-GMO (Not Genetically Modified) and certified Kosher and Halal. Andrew apologizes for the delay in creating his own whey protein, but he knows that once you try it, you'll agree it was worth the wait.

Whey Protein is a dairy-based protein that is considered to be among nature's best protein sources. It has long been used by elite athletes as their preferred protein source for physical recovery and building muscle. The amino acid profile of our **Whey Protein Isolate** is almost identical to that of human muscle containing high levels of all the Essential and Branched Chain amino acids. Our **Whey Protein Isolate** is not just for athletes, but is for anyone at any age seeking to retain lean body tissue. In fact, research has shown that combining whey protein with weight training helps retain strength and lean body mass as we age.

Our **Ultimate Whey Protein** is made with ultra-pure Whey Protein **Isolate**. Its high level of purity cannot be achieved with inferior Whey Protein **Concentrates**. In fact, our **Whey Protein Isolate** ensures the highest levels of protein and is considered fat-free, sugar-free, cholesterol-free and low in sodium; and contains only trace amounts

of lactose. Whey Protein **Isolate** is more expensive than **Concentrate**, but our **Isolate** ensures the highest levels of protein and the virtual elimination of undesirable components.

Each serving of our **Ultimate Whey Protein Isolate** provides 10 grams of highly absorbable protein with a remarkable 4.5 grams of Essential and Branched Chain amino acids! It offers a perfect balance of the highest quality protein for our most vital organs and all of the enzymes that perform our internal work – from energy and fat metabolism to creating beautiful hair and skin. The high quality protein in this product is a dramatic contrast to the inferior protein in the typical American diet.
