

Myrosinase

Glucoraphanin Activator*

ePV:

60 Vegetarian Capsules | Dietary Supplement

EXCLUSIVE PROFESSIONAL FORMULAS

Myrosinase

DIRECTIONS: Take one capsule with every 50 mg of glucoraphanin consumed, or use as directed by your healthcare professional.

Consult your healthcare professional before use. Individuals taking medication should discuss potential interactions with their healthcare professional.

Myrosinase is the enzyme that promotes conversion of naturally occurring glucoraphanin in broccoli to sulforaphane (SPN). A potent activator of antioxidant activity, healthy cell-life cycles, and the production of detoxification enzymes, SPN is linked to the many health benefits associated with cruciferous vegetables.*

*These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure, or prevent any disease.

STORAGE: Keep closed in a cool, dry place out of reach of children.

FORMULATED TO EXCLUDE: Wheat, gluten, yeast, soy, animal and dairy products, fish, shellfish, peanuts, tree nuts, egg, sesame, ingredients derived from genetically modified organisms (GMOs), artificial colors, artificial sweeteners, and artificial preservatives.
