

**BE MAGIC™**

At Be Magic we are excited to bring a synergy of unique Mother Nature gifts such as Manuka Honey MGO500+, Lemon and Ginger for your everyday wellbeing.

New Zealand untouched wilderness provides with zillion of natural products with beneficial properties.

### Ginger

Ginger is among the healthiest and most delicious spices on the planet. Based on ancient Chinese books it is loaded with nutrients and compounds beneficial for human wellbeing. Ginger is a flowering plant that originated from China. It belongs to the Zingiberaceae family and it is closely related to turmeric, cardamom and galangal.

The rhizome (underground part of the stem) is the part commonly used as a spice. It's often called ginger root or simply ginger. The unique fragrance and flavour of ginger come from its natural oils, the most important of which is gingerol.

Based on modern science discovery Gingerol is the main active compound in ginger, responsible for much of its beneficial properties. Ginger was well known to ancient folks as anti-inflammatory natural stuff.\*

### Manuka Honey

Original from New Zealand the monofloral Manuka Honey with 500+ mg/kg of Methylglyoxal that we use to create our lozenges is well known for its unique properties found in the great amount in no other honey in the world.
