MAXIMUM KRILL OMEGA-3™

NATURAL SOURCE OF PHOSPHOLIPID-BASED OMEGA-3S

HIGHER LEVELS OF KRILL OIL EPA AND DHA PER CAPSULE

240 Easy-to-Swallow Capsules

Andrew Lessman's MAXIMUM KRILL OMEGA-3 provides high levels of Omega 3s from Krill Oil, but does so without Krill Oil's normally unpleasant fishy aftertaste. Antarctic Krill are tiny, shrimp-like creatures that live in the oceans near Antarctica and represent one of the most abundant life forms on the planet. Krill Oil provides a moderate-potency source of the key Omega-3 fatty acids EPA and DHA, but in a uniquely distinctive phospholipid form. Another bonus: Krill Oil's rich reddish color comes from the presence of trace amounts of the protective carotenoid Astaxanthin. It is well established that Omega-3s are essential for our good health, yet they cannot be made by the body, so their benefits are only available from a diet rich in cold water fish or by using an Omega-3 formula like **Maximum Krill Omega-3**. Research has shown that diets rich in Omega-3s are associated with superior heart, brain, circulatory and general health; yet sadly, the American diet delivers alarmingly low levels of these precious fatty acids. Our **Maximum Krill Omega-3** provides a unique alternative to fish oil based Omega-3s, delivering higher levels of Omega-3s per capsule than other Krill Oil products. Like all **ProCaps'** fish oil Omega-3 formulas, our **Maximum Krill Omega-3** also allows you to enjoy all the benefits of an Omega-3 formula with NO mercury, NO contaminants, NO stomach upset and NO unpleasant fishy aftertaste.
